

HIGHLIGHTS OF STANDARDISATION (YEAR 2008)

Following New Standards, Completely Reviewed and Amended Standards were Approved in July, 2008

A. New Standards

-  OISD-GDN-228: Selection, Training & Placement of Fire Operators in Hydrocarbon & Petrochemical Industry
-  OISD-STD-230: Unlined Underground Rock Cavern Storage for Petroleum and Liquefied Petroleum Gas
-  OISD-STD-231: Sucker Rod Pumping Units

B. Complete Review

-  OISD-STD-119: Selections, Operation and Maintenance of Pumps
-  OISD-STD-120: Selection, Operation and Maintenance of Compressors
-  OISD-RP-122: Selection, Operation and Maintenance of Fans, Blowers, Gear Boxes, Agitators & Mixers
-  OISD-RP-123: Selection Operation and Maintenance of Rotary Equipment Components
-  OISD-STD-130: Inspection of Piping Systems
-  OISD-RP-174: Well Control

-  OISD-STD-175: Cementing Operations
-  OISD-GDN-186: Simultaneous operations in Exploration & Production industry
-  OISD-RP-201: Environment Management in Exploration & Production Sector
-  OISD-STD-169: Addendum to OISD guidelines on small LPG bottling plants (Design & Fire protection facilities)

C. Amendments in OISD Standards

-  (OISD-STD-116): Fire Protection facilities for Petroleum Refineries and Oil/Gas Processing Plants
-  OISD-STD-117: Fire Protection Facilities for Petroleum Depots and Terminals
-  OISD-STD-118: Layouts for Oil and Gas Installations
-  OISD-STD-144: Liquefied Petroleum Gas (LPG) Installations
-  OISD-STD-150: Design and Safety Requirements For Liquefied Petroleum Gas Mounded Storage Facility
